Martin, do you know what this meeting is about?

Also Luis Meeks called and asked if you got his letter?  
Also just to pass on some of his concerns:

- Half of his calves died this spring,
- Water deliveries for folks not taking the cistern deal are going to end in August,
- When Luis was getting town water from Encana delivered he had issues with his swampcooler (smell) and he also claimed that the town water killed the bacteria in his septic system which then required special maintenance.
- So he is still really frustrated with his water situation.

gregory
